

ANYAPPS-CAR CABLE-BRAKE SYSTEM

CABLE

ABS-EBS Brake System Cable & Trailer signal connecting cables

应用

Used in automotive field, the connection between the trailer ABS/EBS brake system, lights and terminal system. Elastomer material guarantee flexibility and weather resistance.

结构

Stranded bare copper

insulation: Special TPE mixture material (color can be customized according to customer requirements)

*shield: Aluminum mylar 100% coated

* Copper or tinned copper wire braid or spiral shielding. The coverage of 85%

Inner sheath:Insulation plastic film coated or special PVC mixture
outer sheath:Special PVC /TPE mixture material (color can be customized according to customer requirements)

特点

Small diameter, which can save cable installation space .
Meet the most strict electrical and mechanical performance requirements.

性能

Rated voltage:12V /24V
Minimum bending radius: 12 x cable diameter
Oil resistance test: ISO 6722

part	Core number and O.D. n x mm ²	maximum O.D. mm	weight Kg/km
