(optional single non-stick aluminum foil, single   stick aluminum foil, double   sticky aluminum foil, non-stick   double-sided aluminum foil and so on)

Copper or tinned copper wire braid or spiral shielding. The coverage of 85%

(optional Al-mg,CCA and so on)

Sheath:PVC mixture(color can be customized according to customer requirements)

power cord

strands of fine (tin) copper wire

Sheath:PVC mixture(usually black with white color)

特点

Meet UL444 standards, UL13 standards, UL1685 fire test, NEC 800, NEC725

Without noxious material,acc. To ROHS.

安耐特电缆
ANYTE CABLE

Stable performance, signal transmission good, stable quality, the picture without snow
This product conforms EEC procedures 73/23 (low voltage procedures) of CE rules
The CE authentication, make cable can use in Europe and other north American market at the same time.

性能

Rated voltage:300V
operating temperature:Mobile installation:-5 ° C to + 80 ° C, fixed installation:-40 ° C to 80 ° C
